

AMOF-Fjell Process Technology AS new contract for compact Fishmeal plant to new stern trawler to LUNTOS CO. LTD.

AMOF-Fjell Process Technology AS has signed contract with The Russian deepwater fishing company **Luntos Co. Ltd** for a “CFP60” Compact Fishmeal Plant. Luntos operates out of Petropavlovsk-Kamchatka in the Far Eastern Russian Economic Fishing Zones and Western Bering Sea.

This is AMOF Fjells first delivery of CFPs to the Far East Russia.

The CFP has a capacity of handling 60 tons of raw material per 24 hours and is designed and delivered by AMOF-Fjell Process Technology AS.

The trawler is designed by **Vard** (Design 8 04) and is built at Vard Vang Tau – Vietnam and delivered in Q3 2022.

The CFP will produce high quality marine proteins and fish oil from fish waste and cut-offs.
